

## **CIS 634 OBJECT ORIENTED PROGRAMMING PROJECT**

### **PROJECT MEMBERS:**

NIKHIL KUMAR BAMANDLAPALLI  
SIREESH ODURU  
SUJIT REDDY MUDHUNOOR

### **PROJECT PROPOSAL : "UNI VOTE " - a college voting system.**

Using this application students can use his/her voting right online without any difficulty. He/She has to be registered first for him/her to vote. Registration is mainly done by the system administrator for security reasons. The system Administrator registers the voters on a special site of the system visited by him only by simply filling a registration form to register voters. After registration, the voter is assigned a secret Voter ID with which he/she can use to log into the system and enjoy services provided by the system such as voting. If invalid/wrong details are submitted, then the student is not registered to vote.

TECHNOLOGIES: HTML5, CSS, and Javascript for the front end of the website and PHP and MySQL for the backend.
